## Estimated Value of Donated Property Guidelines

May 6, 2016

This is merely a guideline to assist you in determining values for your own items. You must take into consideration the quality and condition of your items when determining a value. **The IRS does not allow us to make a dollar valuation. We can only verify your gift. According to IRS regulations and tax code, clothing and household goods must be in “good used condition or better” for tax deductions.**
